

CALIFORNIA CDPH STANDARD METHOD (Section 01350)

The State of California developed the California Standard Section 01350 specification to cover key environmental performance issues related to the selection and handling of building materials. It is the most popular US standard for evaluating and restricting VOC emissions for indoor air.

All York Contract 15oz. and 20oz. Type II vinyl wallcoverings are California CDPH Standard Method (Section 01350) compliant.

These products can contribute to:

- ANSI/ASHRAE/USGBC/IES Standard 189.1-2011 "Standard for the Design of High Performance, Green Buildings Except Low-Rise Residential Buildings"
- 2012 International Green Construction Code (IgCC) USGBC: LEED 2009 (Schools, Healthcare) and LEED v4
- Collaborative for High Performance Schools (CHPS) - 2009
- Green Guide for Healthcare V2.2 - 2007
- ANSI/GBI 01-2010: Green Building Assessment Protocol for Commercial Buildings (Green Globes)
